Many of today's top tools of the forensic trade will be taught during this course, including software, hardware & specialized techniques. The need for businesses to become more efficient and integrated with one another has given way to a new type of "cyber-criminal." It is no longer a matter of "will your organization be comprised (hacked)?" but, rather, "when?" Today's battles between corporations, governments, and countries are no longer fought only in the typical arenas of boardrooms or battlefields using physical force. Now the battlefield starts in the technical realm, which ties into every facet of modern day life. If your organization requires the knowledge or skills to identify, track, and prosecute the cyber-criminal, then this is the course for you. | 5 | | | 1-5 | | | \$2495 | | 312-49 |
